

BWC Safety Grants Program

Program information

- Cannot purchase or make any payments on the intervention until approved.
- Two-to-one matching funds up to \$40,000.
- Not eligible to apply if employer received \$40,000 in a previous phase.
- Used to purchase equipment to substantially reduce or eliminate injuries and illnesses associated with a particular task or operation.
- Available to public and state-fund private employers
- No claim is required to apply

Program information

- Must answer the questions in the application completely to be approved.
- Must be willing to allow safety & hygiene consultant to conduct a comprehensive safety assessment.
- Must be willing to provide BWC access to information to help it measure the effectiveness of the intervention.
- Must be willing to electronically submit injury data for 2 years after the intervention is in place.
- Must be willing to provide a case study 1 year after intervention is in place including cost benefit information as well as pictures and video. Information from this case study will be shared so others can learn from it.
